**ALL NATURAL SWIM SPA TREATMENT**

This natural, enzyme based Bio-Oxidizer is all you need to maintain a healthy body of water in your swim spa. No other harsh or toxic chemicals needed! This product also contains metal and mineral control agents which will protect all your swim spa components.

An 8oz. bottle treats an average Swim Spa (2000 - 3000 gallons) for one year.

Always store in a cool dark place away from children and pets.

Ingredients derived from plants & minerals.

**Directions for Use**

Your Swim Spa's water should already be balanced, clean and clear before you begin using our products.

Always mix Spa Treatment in 1 gallon of fresh water. Pour the mixture around the perimeter of Swim Spa while running jets for 5 minutes to distribute evenly.

Dosage on bottle based on average size Swim Spa of 1200 - 1500 gallons.

1. Add 1/2 ounce of swim spa treatment to water for the initial dose.

*(Dosage on bottle based on average size Swim Spa of 1200 - 1500 gallons.)*

2. Every 2 weeks thereafter: Add 1/4 ounce of swim spa treatment to swim spa.

*(Reduce or skip dosage if swim spa is not used regularly or not at all during the prior two weeks)*

3. Install a Clear Choice Micron Sleeve around each swim spa cartridge filters for best results.

4. Rinse spa filters and Micron Sleeves once a week.

5. Once a month sterilize spa filters and Micron Sleeves with 5 cups of white distilled vinegar to 5 gallons of water soaking over night or 1/4 cup of bleach to 5 gallons of water for a few hours and rinse thoroughly with fresh water before returning to swim spa.

6. For new users: Maintain a water pH of 7.6 using traditional pH up or down for the first 3 months. After the 3 months, stop adjusting the pH and let the water find its own balance.

7. New swim spas or before you do a water change. Add 2 bottles of Spa Prep to water and let circulate for 1 to 5 days before you drain your swim spa.

8. No Hose-Pre-Filter is required for swim spa maintenance.
